Chicago, IL 60604

Dear Mr. Turner:

I have reviewed the letter to Michael B. Clarke from Ms. Linda Nachowicz, dated September 27, 2005, concerning the RRG Clayton Chemical site. In that letter, EPA identified River Cement Company as a potentially responsible party for the site.

We have searched the records of River Cement Company and have not been able to locate any documentation that River Cement Company sent any material to the RRG Clayton Chemical site.

In order to determine whether we need to be further involved in this matter, we would need the opportunity to review the documentation that EPA has relied upon, purporting to show that River Cement Company was responsible for shipping material to the RRG Clayton Chemical site. Please provide us with the information upon which EPA has relied.

Sincerely,

Daniel B. Nugent
